

# Bush Wa

Mine eyes have seen how gory  
Is the reigning of the Bush  
They were blowing up our buildings  
While he sat upon his tush

For years he's been a failure  
With homeland security  
And now he wants four more...

Chorus

*Gore and Nader tried to warn you  
Now his cabinet does scorn you  
A thousand soldiers now we mourn, you  
can't give Bush your vote.*

In the belly of a big jet  
Bush was borne across the sea  
To surprise our troops in Baghdad  
When they paused to eat turkey.

With photo ops and sound bites  
He's abridged our liberty  
And now he asks for more...

Chorus

In the great halls of the UN  
He sent Powell to lie for him  
With some aerial photography  
Stretched truth is not a sin.

He hath sacrificed his flu shot, now  
He thinks he's gonna win  
Let's show him out the door.

Chorus

**bush•wa**
